Gave the Police Four Names and Addresses, but She Was Not at Any of the Four -Heart Disease Killed the Young Man, Who Was a Travelling Salesman.

The young man who died in the Parkway Circle Hotel on New Year's night, after having registered with a young woman as "James Wilson and wife," was James S. Manson, a travelling salesman for Minot, Hooper & Co., a wholesale dry goods com-Plived at 963 Prospect avenue, The Bronz. with his father, who is a salesman for Fred Butterfield & Co., importers, at 727 Broad-

Who the young woman is is not so cer tain. Coroner Jackson at first said he knew her and could lay his finger on her at any moment. Later in the afternoon after having used up a squad of police men of the East 104th street station in running down addresses, where, he said, the young woman lived, the Coroner began

About 5 o'clock, when Dr. O'Hanlon, who had made an autopsy on the young man's body, reported to him that there was nothing suspicious in the death, Coroner Jackson brightened up preceptibly.

"We'll hold an inquest just the same, he said, "and summon the young woman. Where will you find her?" he was asked. "Now don't ask me that," said the Coroner hotly; "we can't find her just now, but

he get the result of the autopsy.

"I've dropped the case," he said, "the only thing the police were asked to do was to run down fake addresses. We went to four of them and each time with a different name. The Coroner gave us the names and addresses. Of course we didn't and the girl. If the Coroner had consulted us the girl would not have been released until an autopsy had shown that the man died of natural causes."

To the reporters Coroner Jackson said that the girl's name was Bessie Hargrave. Capt. Smith got four diff rent names from the Coroner. They were "Bessie Hargrave," "Bessie Hodges," "Jennie Harrington" and "Clara Hap-good." With each name went a uifferent address. The first one was a house in West Fifty-fourth street, the second in West Fifty-ninth street, the third in West Eightythird street and the fourth in East Fifty-first street. Capt. third street. Capt. Smith's men chased from house to house and didn't find the girl.

"She was young and pretty," the Coroner said, "and came of a good family." He knew she came of a good family because she said so. When the Coroner was called to the hotel, Manson was dead. Dr. Leo Jacoby had worked over him for two hours.

"The doctor told me the man had died of natural causes, probably heart disease," the Coroner said, "and I thought so, too. The young woman said she didn't know her companion's name. First, she said that they had met for the first time that merning, that they had dinner at Shanley's, and a cab ride through Central Park. He became ill in the cab and they went to the hotel. He died about three hours later.

"When I questioned her further she said she had known him a week. She told me her name and address. I had to take her word. If I gave out her name and address it would blacken her fair name forever. Anyway I decided that there was nothing suspicious."

Although the girl told contradictory stories and the identity of the dead man was unknown, the Coroner said he found nitro-glycerine and strychnine tablets in the man's pockets, which he was convinced had been used as a heart stimulant.

The identification of the man was made by reporters who found the name of his tailor on his clothes.

Dr. O'Hanlon, who made the autopsy yesterday afternoon, said that Manson's death had been caused by cerebral hemorrhage, brought on by alcoholism and debility. At Manson's home it was said that he probably had heart disease as other members of the family had the disease. His father declared that he did not drink.

Manson, who had been a travelling salesman for four years, spent Christmas week at his home. He got a \$500 raise in salary as a Christmas present from his employers.

The dead man's brother, Donald Manson, lives with his wife's mother, Mrs. Donald Manson, said last night that her family did not know any "Bessie Hargrave" and she was sure the Mansons did not. Miss Hargraves, at 1 West Ninety-second st

TO DECIDE ON KISSAM'S INSANITY Affairs of the Advertising Man to Be Passec Upon by a Jury.

Justice Maddox in Brooklyn yesterday by Frank T. Jones of 238 West 129th street, Manhattan, for the appointment of a committee of the person and estate of George Kissam, the senior member of the adverement firm of George Kissam & Co. of 253 Broadway, Manhattan, and who lives at 94 South Oxford street, Brooklyn. The other partner is Charles A. Fish.

Mr. Jones deposes that he has been Mr Kissam's personal friend for many years that about twenty months ago Mr. Kissam showed signs of insanity, and that he became so bad he was unable to attend to his business. He also deposes that in March, 1901, Mr. Kissam and his wife, Annie S. Kissam, separated by mutual consent, but that after Mr. Kissam's con-

consent, but that after Mr. Kissam's condition became so bad Mrs. Kissam returned and took care of him.

The papers also show that the assets of the firm of George Kissam & Co. exceed the liabilities by \$100,000, of which Mr. Kissam is entitled to one-half. Mr. Fish, the other partner, desires the partnership dissolved and has brought an action for that purpose. Mr. Jones asked that he be not required to give notice of the application to Mrs. Kissam, for the reason that he has had several interviews with her regarding the matter and that she had threatened to have her husband removed out of the jurisdiction of the court in case proceedings to have him adjudged insane were brought. The affidavits of Drs. Frederick Peterson and A. A. Smith as to Mr. Kissam's mental condition were attached to the application.

Justice Maddox ordered that the question of Mr. Kissam's sanity and the amount of his property be determined by a jury on Feb. 6, and he also directed that Mrs. Kissam be notified of the trial.

COUNTERFEITING MILL SEIZED. actory in Wilmington, Del., Broken Up and a Lot of Bogus Money Found.

WILMINGTON, Del., Jan. 2.—Secret Service Agent George F. Foster, assisted by Chief Black and officers of the local police force, this morning raided 508 West Second street and captured the entire outfit of a counter feiting mill and a large number of counter-feit dollars and nickels.

feit dollars and nickels.

At the same time that the raid was made here, Secret Service agents made a raid in Norristown, Pa. Brigio Malearosa, Siblisa Malearosa, his wife, and Nicola Depace were arrested.

Malearosa, his wife, and kicola Depace were arrested.

Malearosa owned the house here and used the front room as a shoe store. A third-story room, where the counterfeiting outfit was found, had no windows. The officers had to break down the doors to reach the outfit.

Secret Service agents say that this mill has been furnishing the spurious dollars which have flooded Baltimore, Philadelphia and than Pennsylvania towns.

The Western Union management announces its connection with the new trading venture by saying that it is a common carrier. The reason for the revival of the open board is the failure of the bucket shop the contractions from the regular men to get quotations from the regular board. The courts have enjoined that. It is said that the open board is affiliated with the New York Consolidated Exchange.

GLAD TO GET STEEL STOCK. The Giant Corporation's Employees Wel come the Profit-Sharing Plan.

The hearty reception of the profit-sharing pian devised by the United States Steel Corporation for its employees was shown vesterday by the large number of telegrams and messages received at the company's offices in the Empire Building. The circulars detailing the plan have not yet reached all employees, but Vice-President Gaylev received telegrams from the managing heads of nearly all the subsidiary companies, telling of the enthusiasm with which it had been received by those already informed. There were also many independent queries by individual employees. The clerks, men and women, employed in the company's offices here have expressed their intention of taking advantage of the plan.

STUDENTS CAPTURE A BURGLAR. PLINY FISK FIGHTS A THIEF.

CAUGHT HIM IN HIS ROOMS IN THE HOLLAND HOUSE.

Can't Throw Him, So He Rushes Downstairs and Warns the Clerk-Man Caught Coming Down-Police Say He's Nick Moran, a Notorious Hotel Sneak.

The story of a struggle which Pliny Fisk he banker, had with a thief at 7:30 o'clock on the morning of Dec. 31 as the thief was preparing to leave Mr. Fisk's apartments in the Holland House came out yesterday in the Jefferson Market police court. .

Mr. Fisk is the son of Harvey Fisk and is a member of the banking firm of Harvey Fisk & Sons, at 29 Nassau street. The thief says he is Charles Dean, but the police say he is Nick Moran, a notorious hotel thief, who has been sent to jail eight or ten times. once in 1883 for five years for grand larceny at Lexington, Ky.

econd floor of the Holland House. It was said yesterday that he had not been very careful about locking his door. It is supposed that the thief slipped in while one shift of hotel employees was relieving another and got in the room by merely opening an unlocked door. He was seen around the hotel, but had such a good appearance that he was thought to be

Mr. Fisk himself discovered the thief. He was awakened by a rustling of papers in the front room of the suite. He listened for a minute or two and then jumped from his bed, rushed to the front room and seized a man he found there.

Mr. Fisk first tried to drag him to the door, and for a few minutes there was a lively scuffle. The banker, however, could not cope successfully with the thief in that sort of work and he suddenly let go, opened the hall door and ran out.

Mr Fisk was in his night clothes and a few persons were already moving around in the hotel, but he didn't let that trouble him any. He walked up to the clerk's desk and said:

"There's a man in my rooms who has no business there. I think you had better see that no one leaves the place until he see that no one leaves the place until he is caught."

A clerk and several other employees started to go up after the man, but as they reached the foot of the large marble staircase the man started down. He was buttoning his overcoat and was the picture of undisturbed serenity.

ing his overcoat and was the picture of undisturbed serenity.

"That's the man," said Mr. Fisk.

The banker then seized the fellow and held him. Dean, or Moran or whatever his name is, protested, but he was held, and was handed over to Policeman Lavery. Nothing was missing, it is said, from Mr. Fisk's room. Fisk's room

The prisoner was taken to the Jefferson Market police court the same morning and was held for examination yesterday. When he was arraigned then Mr. Fisk made a complaint against him, but the man waived examination. Magistrate Barlow held him in \$2,000 bail for trial.

The Tenderloin police say the man has been seen around Broadway for several days. Capt. Titus's detectives, however, didn't have anything to say about that.

According to the police, Dean or Moran has been in the hotel robbery game for nearly twenty years, but has always got off with light sentences. In February, 1901, he was arrested here and got seven months for robbing a guest at the Hotel Navarre In May of last year he got two months for trying somebody's door at the Herald Square Hotel. He was arrested also as a suspicious person when some jewels as a suspicious person when some jewels were stolen from Mrs. Charles D. Kingdon, mother of Mrs. George J. Gould, but was

News must travel fast from Middle Village to Coney Island. None of the newspapers heard a word about the "wolf" until yesterday, but the Luna Park people did, and they telegraphed at once that the "wolf" was theirs. They are going to get him to-day. The Magers will be glad to get rid of the beast, but what bothers them is to account for the rapidity with which the news of the capture went from their hotel to Coney Island. They say that the show people must have tracked the beast and been close on his trail when he was captured.

DISMASTED AND SHORT OF FOOD The American Ship St. David in Distret Off the Japanese Coast.

SAN FRANCISCO, Jan. 2.—The American ship St. David, bound from Manila to Tacoma, is drifting about on the North Pacific, dismasted and short of provisions. The Japanese liner America Maru, which reached port to-day from the Orient, spoke the ship off the Japanese coast and sent a boat load of food to the starving sailors. The America Maru was about a day out

from Yokohama on her way here when she sighted the St. David, flying signals of distress. Her main topmast was gone and most of the toprigging of the other mast was gone. Capt. Going sent provisions to the St. David and took off Harry John Johnson, an ordinary seaman of Los An-geles, said to be dying. The St. David intended to try to reach Yokohama, al-though she had been badly battered in a

storm.

Johnson recovered and told the story of the disaster. He said he had shipped at Manila and at the same time Capt. Harrington had given up the St. David to Capt. Ryder, who went from San Francisco to take command. Capt. Ryder understood that the ship was well enough provisioned to make the voyage to Tacoma. In a few days the provisions ran low and for days they had been living on sait beef, flour and tea. One of the men died from illness brought on by starvation. The St. David was nearly wrecked in a typhoon eighty-five miles from the Japanese coast.

From what the police could learn Varoulo, who lived with his wife at 2041 First avenue, had been teaching languages to Clotilda Pasca, the daughter of Varoulo's partner. The police say that he had promised to try to get a divorce and marry his young pupil. Varoulo was evidently shot from a bedroom window as he was talking to the young woman.

The police took Clotilda, her sister Annie and their mother to the East 104th street station as witnesses.

The Italians in the case are all of the more prosperous class in Harlem's "Little Italy."

CAUGHT PAWNING DIAMONDS. Two Italians Must Explain How They Got a \$2,000 Ornament.

Detectives Langan and Betts of the Central Office in Brooklyn while looking for stolen goods in a Park row pawnshop yesterday morning incidentally arrested two Italians, who were trying to dispose of a \$2,000 diamond-studded ornament, as suspicious persons. They had already obtained \$250 on the ornament and redeemed it in another pawnshop and were negotiating for another loan on it in the Park row shop when the detectives arrested Park row shop when the detectives arrested them. The prisoners gave the names of Vito Andrizzo of 56 Hudson avenue, Brooklyn, and Antonio Gregaico of 70 kim street, Manhattan. Andrizzo said that the ornament belonged to his wife, but when the woman was seen she declared that she never owned a diamond in her life. Andrizzo then said that he had found the jewel in the Twenty-third street ferryhouse. A railroad ticket for Great Neck, L. 74,000 LINES GAIN.

Advertising in THE SUN (daily and Sunday) increased more than 26% in Dec., 1902, as compared with the same month of the previous year. The gain in agate lines exceeded

74,000

OR MORE THAN ONE FULL PAGE A DAY.

The only other daily newspaper that showed increased business during the same period gained considerably less than one per cent. All the other newspapers suffered losses varying from 10,000 to more than 100,000 lines of advertising.

MRS. MANSON HELD; NO BAIL, THE FACT THAT

Mrs. Minson remarked: "I would like to know where they are going to keep that stomach, so I could put something into it to eat it up."

Mrs. Manson turned and whispered something to George Wilson when this evidence was given. Mrs. Tanner's husband corroborated this testimony.

James Calnen, a drug clerk, said that on Dec. 11 Mrs. Manson came into his store and asked for arsenic in liquid form. She said she wanted to give it in doses of from two to ten drops to an old lady whom she was nursing in Ashford. Witness told her he did not have it, and she left the store, but came back later and asked for white arsenic, saying she would mix it herself, but he didn't sell it to her. He identified Mrs. Manson positively

Damned Fly With Their Snapshots -Testimony as to the Purchase of

WILLIMANTIC, Conn., Jan. 2 .- Mrs. Mary Lillian Manson and George Wilson were to-day formally charged with the murder of Mrs. Julia A. Wilson. The prisoners were brought from the Brooklyn jail, six-teen miles away, by Sheriff P. B. Sibley to the Town Hall in Warrenville. The hall

Wilson's words were: "Not guilty."

Mrs. Tanner testified that on the day

drove up in front of his store and the woman asked for an ounce of arsenic, which he sold her. She gave him the name of Julia Wilson of Mansfield Centre. Witness said he could not positively identify the prisoners, but was inclined to think they were the ones to whom he sold the arsenic.

Ora Wilson, the dead woman's youngest son, said that his mother did not want Mrs. Manson at the house and sent her z way once, but she came back. While she was away his mother got better, but on Mrs. Manson's return she was taken ill again. He said that Mrs. Manson mixed ail the medicine for his mother and cooked all of

her food.

Dr. Converse said, in his opinion, Mrs.
Wilson died from arsenic poisoning.

Dr. Wolff described the analysis he had made of the stomach, liver and kidneys, and said that he found a large quantity of

and said that he found a large quantity of arsenic in them.

Justice Knowlton bound the prisoners over to the Superior Court without bail.

After the hearing Mrs. Manson talked with her husband, James Manson, who arrived in the afternoon from Bridgeport to assist her. She also talked with her father, John Young, and during the conversation showed her violent temper in several ways, once angrily telling her father he talked too much. She also became enraged at the camera fiends and said: "You are pretty damned fly with your snapshots."

Evidence Offered by the Defence in Her Libel Suit Is Barred Out. SAN DIEGO, Cal., Jan. 2.-In the Tingley libel suit to-day Miss Irene Willis of Hanher dying sister from Point Loma, was not allowed to tell anything concerning a few months after she was taken from the

neswpaper article, may have been caused by quarrels in the cabinet. Judge Torrance ruled out all this testimony.

The constant barring out of testimony he has gathered has greatly disgusted Gen. Harrison Gray Otis, editor of the Los Angeles Times, and he has taken no pains to conceal his feelings. Whatever the verdict, the case will be taken to the pains to concean its rectings. Whatever the verdict, the case will be taken to the Supreme Court.

Mrs. Tingley was called early in the afternoon session and entered a general denial of most of the things that have been in the best terms.

Both boys had secured magazine air rifles at Christmas. They went out yesterday to shoot sparrows. When they returned, they told their parents that the rifles were empty of bullets, which were about the size of buckshot.

On the way to their room on an upper floor the younger of the brothers pointed his gun at Gilbert, who was ahead of him. The latter pointed his rifle at William and pulled the trigger, believing that the gun was not loaded.

SCHOOL FOR THE SLOW-WITTED

SUPERINTENDENT MAXWELL IS WORKING OUT A PLAN.

Like London, New York Is to Have a Place Apart for the Instruction of Children Whose Faculties Are Defective—Da, Louise F Bryson's Figures Incorrect. THE SUN yesterday printed a letter writ-

ten by Dr. Louise Fiske Bryson, in which she pointed out the need for special instruction of mentally defective children in the public schools. Dr. Bryson said that out of the 500,000 children now attending the public schools, 8,500 are reported to be in some sense deficient, defective or feeblenot be taught in classes with children of average intelligence, and she urged special schools for them.

Dr. William H. Maxwell, City Superintendent of Schools, said yesterday that his department was giving the matter careful consideration and that it was probable that a school for defective children would be established in this city. He and his associate superintendents had been at work investigating and planning for such a school

"I have realized for a long time," Mr. Maxwell said, "that there was need for special instruction of children who are not up to the average mentally. Such children, naturally, cannot learn as quickly as others of their classes. When I made a report of the work done in this office for the year 1899-1900 I spoke of the need of a special school for the instruction of defective children and outlined the system by which such

school for the instruction of defective calldren and outlined the system by which such
children are taught in London.

"The associate superintendents and myself have found that several problems
will have to be solved before we can arrange
for this special instruction. In the first
place, before a child could be put in a class
for defectives it would be necessary to
have him or her examined by a medical
expert. That is the custom in London. A
special provision will have to be made for
the employment of the medical examiner
by the Board of Education.

"It will also be necessary to find teachers
who are especially trained and adapted
to teaching such children. Dr. Bryson's
figures regarding the number of the children
in the public schools are incorrect, according to the estimates made for me by the
principals. From what I learn I should
say that there are about 1,800 defective
children at school in New York.

"It seems to me that the London plan is
most practical for use in this city. There
special schools are established at different
centres in which only defective children
are taught. I cannot tell yet the plans
that we are working out. We are forming
our plans quietly and are going to carry
them out, but the question is so delicate
and requires so much care and study that
it would be foolish to tell what has been
done until everything is arranged." done until everything is arranged."

C. A. Place's Suit for Salary Withdrawn. NEW HAVEN, Jan. 2.—Counsel for Charles A. Place of New York city announced in the Superior Court to-day that he had withdrawn his claim against the Metropolitan Rubber Company for \$27,000 for services as president of the company for three years. It is said that there has been satisfactory settlement.

Corporation Counsel Rives yesterday appointed Frederic Kernochan as an assistant. Mr. Kernochan succeeds J. Fairfax McLoughlin, who recently resigned. The salary of the office is \$1,500 a year. Mr. Kernochan is a nephew of the late James Kernochan and a cousin of the well-known amateur steeplechase rider.
